

# One Tough Wheel Pack

## One Great Packaging Solution

Introducing one tough returnable wheel pack that can take whatever you demand from it.

Designed to AIAG's specifications and to provide outstanding durability, Fabri-Form's goal was to create a transport packaging system to meet or exceed industry standards while remaining economical because it is reusable and recyclable.

As an early pioneer in returnable transport packaging systems, Fabri-Form has developed an innovative and cost effective answer to the transport packaging needs of the metal wheel/rim manufacturing industry.

### Better by Design

- Manufactured from completely recyclable HDPE
- Four-side fork accessibility
- Stackable by design for effective warehousing.
- Nestable when empty for efficient storage and easy reusability
- Ergonomically designed to be completely compatible with manual and automated handling systems
- Designed for all product securing options
- Drainage holes avoid moisture collection
- Easily marked for shipping and return guarantee
- Freight savings and quick response from our strategically located facilities

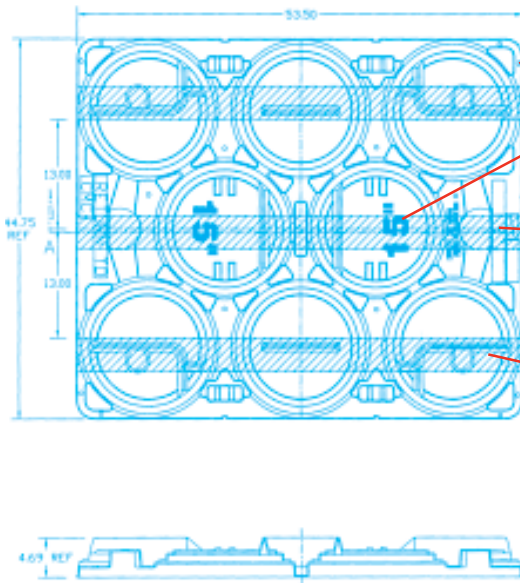

### Customer Options

- Custom thermoformed logos
- Custom colors
- Color striping
