

Fabri-Form's Global Transport Packaging Solutions

Since 1943, The Fabri-Form Company has pioneered creative solutions to a wide array of plastic products and applications for its world-wide customer base.

Our Solution Pallet and Solution Pack products for Transport Packaging Systems are examples of many creative solutions that are a revolutionary departure from current shipping systems.

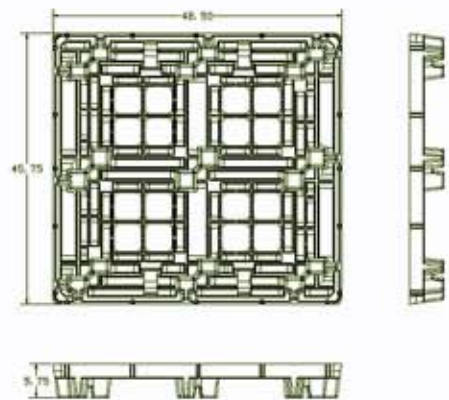

Our series of pallets and packs are designed to save you money and are more cost effective than traditional shipping systems. They are reusable, recyclable, while increasing warehouse efficiency and productivity.

Looking for a Transport Packaging Solution?

Then look no further than the Solution Series by The Fabri-Form Company.

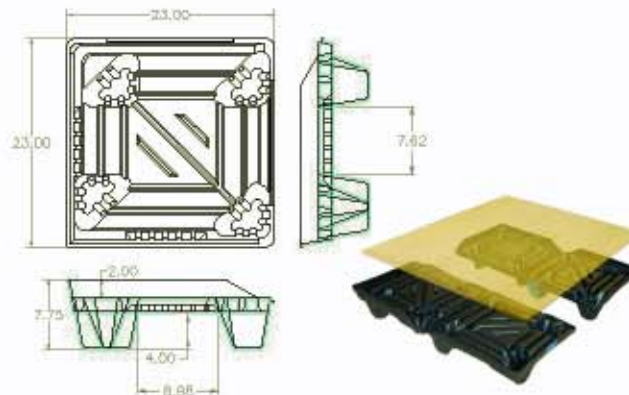

4548SS

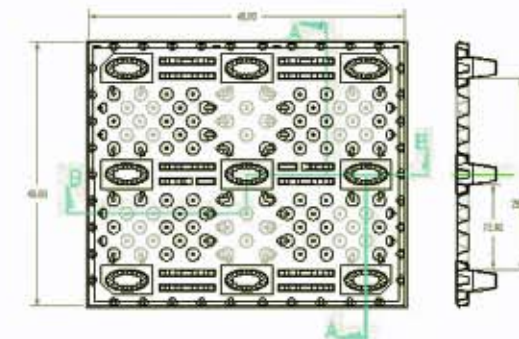

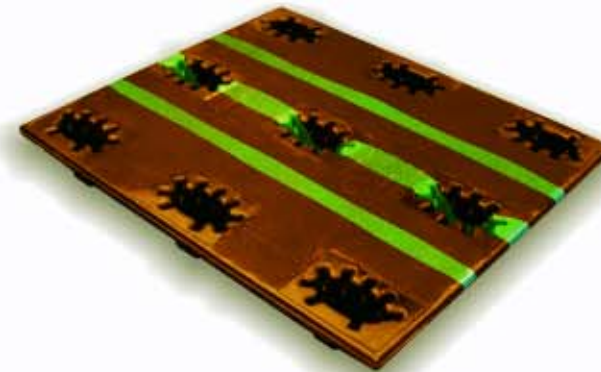

The 4548 single sheet is designed for customers that need a standard, economical transport system that will provide years of service. Formed from high density polyethylene, the 4548SS pallet nests for ease of return transport and storage. The pallet also doubles as a top cover when required. If you are looking for an economical, single sheet pallet, the 4548SS is the pallet to specify.

2323SS

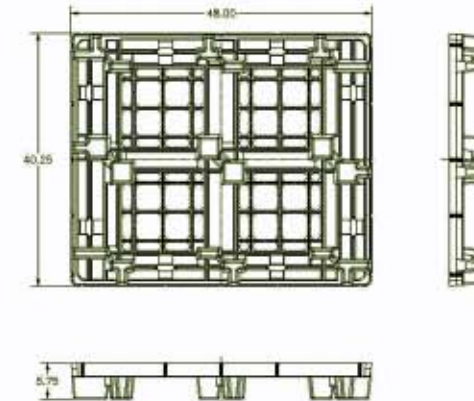

Flexible pallet design to accommodate special shipping problems. Each 2323 is made from high density polyethylene and nests easily for compact storage. Top and bottom pallets are interchangeable and are designed for one person to set up and take down. The 2323 is a perfect solution for those unique products that do not fit a standard shipping pallet.

4048TS

The 4048 twin sheet Solution pallet is designed for heavy duty applications where weight of product is of consideration. Formed from two sheets of fused high density polyethylene, the 4048TS hosts many features such as a non-slip top deck and four way pallet entry for both truck and pallet jacks. Optional features are molded custom company identification and color striping for inventory tracking systems.

4048SS

The 4048 single sheet is for customers that require a standard, economical and returnable transport system that will provide years of proven service. The 4048SS is formed from high density polyethylene and nests together for ease of return transport and storage. The 4048SS pallet also doubles as a top cover when required. Many custom options such as molded company logo and color control striping are available on request.

Returnable, Reusable, Recyclable

Solution Model	OD Dimensions		ID Dimensions		Foot Height	Locking Feature	Weight (lbs)	Lip Height	Nested Truckload	
	L	W	L	W					48' Trailer (Nested)	53' Trailer (Nested)
