

# We Vacuum Form Plastic!

*Drain Tile System (up to 10' long)*

*Refrigerator Door Liner*

*Scale*

*Children's Sandbox*

*Parts Tray*

**The Fabri-Form Company** has over fifty years experience in the plastic fabrication and thermoforming business.

Fabri-Form has earned a reputation for producing superior production parts. From in-house engineering and design to manufacturing, we create quality tooling and products.

Our network of three manufacturing facilities has the capacity to meet the most demanding schedule requirements.

### Fabri-Form In-House Services

- Engineering and Design
  - 2D and 3D Computer Design Capabilities
- Algor's Supersap Finite Element Modeling and Analysis
- Modern Laboratory Testing
  - Vibration Analysis
  - Compression Analysis
  - Shipping / Impact Analysis
- Pattern and Prototype Fabrication
- Production Tooling (CNC Mold Building)
- Plastic Sheet Extrusion
- Thermoforming
  - Single Sheet
  - Twin Sheet
  - Vacuum
  - Pressure Forming
- Machining and Fabrication Operations
- Multi-Axis CNC Trimming
- Product Assembly
- Materials: ABS, Polystyrene, Polyethylene, PVC, Acrylic, PETG, Polypropylene, Polycarbonate

*Aircraft Light Bezel*

*Parts Tray*

*Play Stove Top*

### Fabri-Form Equipment

- Sheet Extruders
- Rotary Vacuum Forming Machines
  - Up to 120" x 72"
- Die Cutting and Trimming Presses
- Mechanical Fastening, Trimming, Routing, Assembly and Packaging
- Material Recycling Equipment

*Aircraft Landing Light Cover*

### Fabri-Form Business Advantage

- **Experience** - Founded in 1943
- **Capacity** - Three Manufacturing Facilities
- **Quality** - ISO 9000 Certification / SPC Control Production
- **Engineering** - Project Team Management - From Concept to Product
- **Service** - Nationwide Delivery Truck System
