

The FABRI-FORM[®] Co.

DESIGNED TO PROTECT THE LOAD!
TRUCK BULKHEAD SPACER
With Solution Separator Pad

Product evenly spaces load in order to balance weight distribution

- Withstands up to 20,000 lbs of force
- Portable and easy to set-up
- Lightweight
- High Impact Resistant
- Long Service Life
- Recyclable
- Patented Interlocking Design
- Easy to Clean Polyethylene
- Built in Labor Saving Hand-Holds
- Reduces truck load time.
- Eliminates the use of corrugated, wood, and airbag spacers – which are typically not reused or recycled
- This system reduces damage – Separator Pad protects the load – separating dissimilar parts from one another
- This system complies with the Code of Federal Regulation (49) for Motor Carrier Safety Regulations.
